

Oil & Gas

UNLOCK SUCCESS
THROUGH TECHNOLOGY

The use of technology is revolutionising the energy sector.

With major oil and gas hubs situated across the globe, a strong IT system has always been essential for clients.

In the future, this need will increase throughout the sector, as technology advances and digitalisation becomes more prevalent.

Adopting an online platform, such as Microsoft Teams, allows for two companies at the opposite ends of the world to present information, host web calls and share information with ease. enabling your employees to work together increasing collaboration throughout your organisation – even if some of your staff are working flexibly or remotely.

PROTECTING CRITICAL BUSINESS ASSETS

Sector Challenges

Some of the challenges that the Oil & Gas sector face include:

SECURE, FLEXIBLE WORKING

Providing the capabilities for all staff to work anywhere in the world, whilst ensuring that company data remains secure.

COMMUNICATION

As a global industry, oil and gas companies need to be able to communicate quickly and cost-effectively. Adopting an online platform, such as Microsoft Teams, allows for companies around the world to host web calls and share information with ease.

24/7 ACCESS

Making sure that all offices, regardless of location, have constant access to our emergency on call team.

INDUSTRY SPECIFIC SOFTWARE

From project management tools to design software, such as CAD, industry specific tools are critical to a company's operations. Downtime can halt production, impact deadlines, and cause financial loss.

WHAT OUR CUSTOMERS HAVE TO SAY

"We have been working with IT Hotdesk for almost 10 years now. We did a review, decided to change suppliers, and have stuck with the team ever since - as we are happy with the service provided. IT Hotdesk manages all of our IT - from our servers and back-ups to all the desktop machines. They are essentially our outsourced IT team and take care of everything. Our business has evolved quite a lot over the last 10 years, and IT Hotdesk has scaled with us."

Jim Watt, Managing Director, AMT Intercargo

DEDICATED PROACTIVE AND REACTIVE SUPPORT

MICROSOFT 365

Microsoft 365 is a complete solution that allows employees to work collaboratively and securely from anywhere.

A combination of Office 365, Windows 10, and Enterprise Mobility + Security, the package allows for your firm to operate in a modern and secure workspace.

MICROSOFT TEAMS

Microsoft Teams is a communications platform and is primarily part of Microsoft 365. Removing the need for SharePoint, Outlook, and Skype, Microsoft Teams brings people, conversations, and content together into one place.

MANAGED CLOUD SERVICES

Manage your IT online with our on-demand, pay-as-you-go solutions. Hold everything from servers and storage to applications, analytics, and software, online, and in one place.

MANAGED CYBERSECURITY

Providing an unlimited and all-inclusive detect and protect service for your company.

CONNECTIVITY

Secure, fast, and reliable solutions to keep your business connected 24/7.

LET'S GET STARTED

Whether you'd like a fully managed IT service, or you'd like to complement and enhance your in-house IT team, we at IT Hotdesk are here to help.

WHY CHOOSE IT HOTDESK

Although clients have always thought it important to have a robust IT system in place, we've seen a noticeable shift in the last 18 months. Clients are looking to streamline processes, work smarter, and save money.

At IT Hotdesk we can work with you to establish your aims and objectives and develop a strategy that supports your business needs, helping you achieve your goals.
