Renewables

**UNLOCK SUCCESS
THROUGH TECHNOLOGY**

Technological advances are shaping the future of the energy sector, which has led to a shift in the use of renewable sources.

The renewables industry is recognised as the future, and with projects operating across the globe, it's important that companies have a strong dependable IT system in place.

Boasting many years of experience working across multiple sectors, including oil and gas and maritime, IT Hotdesk is able to promote successful IT campaigns and initiatives that can be adapted to benefit companies operating in the renewables sector.

CAPABILITIES TO **PROTECT** CRITICAL BUSINESS **ASSETS**

Sector Challenges

Some of the challenges that our clients working within the renewables sector face include:

SECURE, FLEXIBLE WORKING
Providing the capabilities for all staff to work anywhere in the world, whilst ensuring that company data remains safe and secure.

COMMUNICATION
As a global industry, renewable energy companies need to be able to communicate quickly and cost-effectively. Adopting an online platform, such as Microsoft Teams, allows for companies around the world to host web calls and share information with ease.

24/7 ACCESS
Making sure that all offices, regardless of location, have constant access to our emergency on-call team

INDUSTRY SPECIFIC SOFTWARE
From project management tools to design software, such as CAD, industry specific tools are critical to a companies operations. Downtime can halt production, impact deadlines, and cause financial loss.

A PASSIONATE, PROACTIVE AND RELIABLE TEAM OF IT EXPERTS LOCATED IN ABERDEEN, GLASGOW, EDINBURGH AND INVERNESS.

DEDICATED PROACTIVE AND REACTIVE SUPPORT

MICROSOFT TEAMS

Microsoft Teams is a communications platform and is primarily part of Microsoft 365. Removing the need for SharePoint, Outlook, and Skype, Microsoft Teams brings people, conversations, and content together into one place.

MICROSOFT 365

Microsoft 365 is a complete solution that allows employees to work collaboratively and securely from anywhere.

A combination of Office 365, Windows 10, and Enterprise Mobility + Security, the package allows for your firm to operate in a modern and secure workspace.

MANAGED CLOUD SERVICES

Manage your IT online with our on-demand, pay-as-you-go solutions. Hold everything from servers and storage to applications, analytics, and software, online, and in one place.

MANAGED CYBERSECURITY

Providing an unlimited and all-inclusive detect and protect service for your company.

CONNECTIVITY

Secure, fast, and reliable solutions to keep your business connected 24/7.

LET'S GET STARTED

Whether you'd like a fully managed IT service, or you'd like to complement and enhance your in-house IT team, we at IT Hotdesk are here to help.

WHY CHOOSE IT HOTDESK

IT Hotdesk joined the DeepWind Cluster in July 2020 and have already helped fellow members with their IT requirements. Our bespoke, hands-on approach ensures that IT adds value to their business and helps accelerate business efficiency and objectives at all times. With IT Hotdesk being headquartered in the heart of the DeepWind Cluster in Aberdeen, we are well-positioned to support one of the cluster's main objectives, which is to have a strong Scottish supply chain that works together to strengthen the cluster and subsequent projects.
